

Illinois Chapter 158
We are central Illinois!

ASIS158.org

2014

FUNDRAISER = GOLF!!! A win-win

Remember those days of perhaps scraping nickels together from the frat house cushions to grab a burger and a beer with your buddies at college? Working while going to school builds character and all, but this outing gave a hand up to those students in the criminal justice and security fields in memory of a colleague Phil Benne. Phil's career path is one those students hope to follow and would serve as a realistic goal for the Western IL students pursuing public service work. On December 27th 2012 Phil passed away at age 55, but honoring his public service in the spirit of our ASIS commitment to education work hand in glove via the annual ASIS Chapter 158 golf scramble.

Phil Benne 1953-2012

Over \$1,700.00 was raised to support such efforts

What you miss, when you miss-

Our very own Tim Hall presented at the May 22nd meeting at the Ozark House. The topic was Healthcare security. Tim shared his insight into the security of the healthcare environment including regulatory challenges, unique clientele conditions as well as the volatile nature of the emergency room and psychiatric units. It is great when a fellow chapter member presents, and we hope you will consider presenting as well! If you have a topic you think would be of interest, and you're willing to present it at a meeting, please contact Patty Fann -
